DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-36 are rejected under 35 U.S.C. 102(e) as being unpatentable by Hansted (20020006826).
3. Regarding claim 1 Hansted teaches a method for distributing a recreational application within a group of terminal arrangements, where the group comprises at least two terminal arrangements and each terminal arrangement comprises a terminal of a cellular radio system, the method comprising the steps of (fig. 1):

transmitting from a first terminal (User # 1) arrangement to a second terminal (User # 2) arrangement a proposal for setting up a session of utilising a recreational application and only after the second terminal arrangement has received said proposal (paragraphs # 0099-0102), using the communicational capabilities of at least one of the first and second terminal arrangements to establish a state where both the first terminal arrangement and the second terminal arrangement possess enough software components for setting up a common, shared session of utilising said recreational application (paragraphs # 0095, 0099-0101).

Regarding claim 2 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal identifying a number of proposed recreational applications (paragraphs # 0100, 0128), transmitting from the second terminal arrangement to the first terminal arrangement a request for obtaining a software component necessary for setting up a common (paragraphs # 0095, 0131, 0077-0082), shared session of utilising one of said proposed recreational applications and as a response to receiving said request in said first terminal arrangement, transmitting said software component from the first terminal arrangement to the second terminal arrangement (paragraphs # 0095, 0099-0101).

Regarding claim 3 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the second terminal arrangement, is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0095, 0099-0101).

Regarding claim 4 Hansted teaches comprises the substep of transmitting said software component from the first terminal arrangement to the second terminal arrangement through a local communication link (fig. 1, paragraphs # 0060-0063).

Regarding claim 5 Hansted teaches comprises the substep of transmitting said software component from the first terminal arrangement to the second terminal arrangement through the cellular radio system (fig. 1, paragraphs # 0063).

Regarding claim 6 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an acknowledgement indicating the

Art Unit: 2686

reception of said software component (paragraphs # 0130-0134), indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0095-0096, 0100-0101).

Regarding claim 7 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal identifying a number of proposed recreational applications (paragraphs # 0100-0101), transmitting from the second terminal arrangement to a recreational application server a request for obtaining a software component necessary for setting up a common, shared session of utilising one of said proposed recreational applications (paragraphs # 0100-0101), and as a response to receiving said request in said recreational application server, transmitting said software component from said recreational application server to the second terminal arrangement (paragraphs # 0095-0096, 0100-0101).

Regarding claim 8 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the second terminal arrangement, so that step, is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0100-0101).

Regarding claim 9 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an acknowledgement indicating the reception of said software component (paragraphs # 0095-0096, 0100-0101) and, indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0100-0101, 0166).

Regarding claim 10 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal identifying a number of proposed recreational applications (paragraphs # 0100-0101, 0094-0095), transmitting from the second terminal arrangement to the first terminal arrangement a request for obtaining a software component necessary for setting up a common, shared session of utilising one of said proposed recreational applications, as a response to receiving said request in said first terminal arrangement (paragraphs # 0100-0101, 0094-0095), transmitting a network address of a recreational application server from the first terminal arrangement to the second terminal arrangement, transmitting from the second terminal arrangement to said recreational application server a request for obtaining a software component necessary for setting up a common (paragraphs # 0094-0095), shared session of utilising one of said proposed recreational applications and as a response to receiving said request in said recreational application server, transmitting said software component from said recreational application server to the second terminal arrangement (paragraphs # 0094-0095, 0100-0101).

Regarding claim 11 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the second terminal arrangement, so that step is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0094-0095, 0100-0101).

Regarding claim 12 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an acknowledgement (paragraphs #

Art Unit: 2686

0130-0134) indicating the reception of said software component and, indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0094-0095, 0100-0101, 0128).

Regarding claim 13 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal identifying a number of proposed recreational applications (paragraphs # 0100-0101, 0130-0134), transmitting from the second terminal arrangement to the first terminal arrangement a request for obtaining a software component necessary for setting up a common, shared session of utilising one of said proposed recreational applications, as a response to receiving said request in said first terminal arrangement (paragraphs # 0094-0095, 0100-0101, 0128), transmitting from the first terminal arrangement to a recreational application server a request for downloading into the second terminal arrangement a software component necessary for setting up a common, shared session of utilising one of said proposed recreational applications and (paragraphs # 0094-0095, 0100-0101, 0128) as a response to receiving said request in said recreational application server, transmitting said software component from said recreational application server to the second terminal arrangement (paragraphs # 0094-0095, 0100-0101, 0128).

Regarding claim 15 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the second terminal arrangement, is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0094-0095, 0100-0101, 0128).

Regarding claim 16 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an acknowledgement indicating the reception of said software component and indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 17 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal identifying a number of proposed recreational applications (paragraphs # 0094-0095, 0100-0101, 0128, 0132), transmitting from the second terminal arrangement to the first terminal arrangement a request for obtaining a software component necessary for setting up a common, shared session of utilising one of said proposed recreational applications, as a response to receiving said request in said first terminal arrangement, transmitting from the first terminal arrangement to a recreational application server a request for downloading into the first terminal arrangement a software component necessary for setting up a common, shared session of utilising said one of said proposed recreational applications (paragraphs # 0094-0095, 0100-0101, 0128, 0132), as a response to receiving said request in said recreational application server, transmitting said software component from said recreational application server to the first terminal arrangement and as a response to receiving said software component, transmitting from the first terminal arrangement to the second terminal arrangement a software component necessary for setting up a common, shared session of utilising said one of said

Art Unit: 2686

proposed recreational applications (paragraphs # 0100-0109, 0012-0014, 0077-0082, 0166-0175).

Regarding claim 18 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the second terminal arrangement, is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 18 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an acknowledgement indicating the reception of said software component and, indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 19 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal identifying a number of proposed recreational applications, transmitting from the second terminal arrangement to the first terminal arrangement a first acknowledgement indicating agreement to set up a common, shared session of utilising one of said proposed recreational applications (paragraphs # 0094-0095, 0100-0101, 0128, 0132), transmitting from the first terminal arrangement to a recreational application server a first request for obtaining a software component necessary for setting up a common (paragraphs # 0100-0109, 0012-0014, 0077-0082, 0166-0175), shared session of utilising said one of said proposed recreational applications, transmitting from the second terminal

Art Unit: 2686

arrangement to a recreational application server a second request for obtaining a software component necessary for setting up a common, shared session of utilising said one of said proposed recreational applications, as a response to receiving said first request in said recreational application server, transmitting the requested software component from said recreational application server to the first terminal arrangement (paragraphs # 0094-0095, 0100-0101, 0128, 0132), as a response to receiving said second request in said recreational application server, transmitting the requested software component from said recreational application server to the second terminal arrangement and exchanging a pair of messages between the first and second terminal arrangements indicating the readiness of utilising the recreational application (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 20 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the second terminal arrangement, so that step b) is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 21 Hansted teaches the step of indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 22 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a proposal for setting up a common, shared session of utilising a recreational application (paragraphs # 0094-0095, 0100-

0101, 0128, 0132), transmitting from the second terminal arrangement to the first terminal arrangement a proposal identifying a number of proposed recreational applications, transmitting from the first terminal arrangement to the second terminal arrangement a request for obtaining a software component necessary for setting up a common, shared session of utilising one of said proposed recreational applications and as a response to receiving said request in said second terminal arrangement, transmitting said software component from the second terminal arrangement to the first terminal arrangement (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 23 Hansted teaches the step of presenting said number of proposed recreational applications to the user of the first terminal arrangement, is only executed as a response to receiving from said user an indication of acceptance concerning one of said number of proposed recreational applications (paragraphs # 0100-0109, 0012-0014, 0077-0082, 0166-0175).

Regarding claim 24 Hansted teaches indicating to the users of the first and second terminal arrangements the readiness of utilising the recreational application (paragraphs # 0100-0109, 0012-0014, 0077-0082, 0166-0175).

Regarding claim 25 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a complete copy of those software components which the first terminal uses for setting up a common, shared session of utilising said recreational application (paragraphs # 0100-0109, 0012-0014, 0077-0082, 0166-0175).

Regarding claim 26 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a limited copy of those software components which the first terminal uses for setting up a common, shared session of utilising said recreational application, said limited copy being only usable for setting up a common, shared session of utilising said recreational application together with the particular first terminal arrangement in question (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claims 27,34,35 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement a more advanced copy of those software components which the first terminal uses for setting up a common, shared session of utilising said recreational application (paragraphs # 0094-0095, 0100-0101, 0128, 0132,).

Regarding claim 28 Hansted teaches transmitting from the first terminal arrangement to the second terminal arrangement an authenticated offer for setting up a common, shared session of utilising said recreational application, forwarding said authenticated offer from the second terminal arrangement to a recreational application server (paragraphs # 0094-0095, 0100-0101, 0128, 0132), and transmitting from said recreational application server to the second terminal arrangement a limited copy of software components needed for setting up a common, shared session of utilising said recreational application, said limited copy being only usable for setting up a common, shared session of utilising said recreational application together with the particular first terminal arrangement in question (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 29 Hansted teaches imposing a charge to the user of the first terminal arrangement for setting up a common, shared session of utilising said recreational application together with the particular second terminal arrangement in question (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 30 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an authenticated offer for setting up a common, shared session of utilising said recreational application, forwarding said authenticated offer from the first terminal arrangement to a recreational application server, and transmitting from said recreational application server to the second terminal arrangement a copy of software components needed for setting up a common, shared session of utilising said recreational application (paragraphs # 0100-0109, 0012-0014, 0077-0082, 0166-0175).

Regarding claim 31 Hansted teaches imposing a charge to the user of the second terminal arrangement for setting up a common, shared session of utilising said recreational application together with the particular first terminal arrangement in question (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 32 Hansted teaches transmitting from the second terminal arrangement to the first terminal arrangement an authenticated offer for setting up a common, shared session of utilising said recreational application, forwarding said authenticated offer from the first terminal arrangement to a recreational application server together with another authenticated offer from the first terminal arrangement for setting up a common, shared session of utilising said recreational application

(paragraphs # 0065,0071), and transmitting from said recreational application server to the terminal arrangements copies of software components needed for setting up a common, shared session of utilising said recreational application (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 33 Hansted teaches imposing charges both to the user of the second terminal arrangement for setting up a common, shared session of utilising said recreational application together with the particular first terminal arrangement in question and to the user of the first terminal arrangement for setting up a common, shared session of utilising said recreational application together with the particular second terminal arrangement in question (paragraphs # 0094-0095, 0100-0101, 0128, 0132).

Regarding claim 36 Hansted teaches a terminal arrangement comprising (fig. 1) a terminal of a cellular radio system, comprising means for exchanging proposals for setting up sessions of utilising a recreational application with other terminal arrangements (paragraphs # 0094-0095, 0100-0101) and means for responding to a situation where such proposals have been exchanged by using its communicational capabilities to establish a state where both it and another terminal arrangement possess enough software components for setting up a common, shared session of utilising said recreational application (paragraphs # 0094-0095, 0100-0101).
